DECEMBER 20, 2005 AMENDMENT TO BOARD AGENDA ITEM #44: SKID ROW OUTREACH STRATEGIES

INTRODUCTION

On December 20, 2005, your Board instructed the Department of Public Social Services (DPSS) and the Department of Children and Family Services (DCFS) to further enhance Skid Row Outreach efforts by making the Skid Row Outreach Team's first priority child safety. The December 20, 2006 motion:

- Designated DCFS and DPSS as the lead agencies responsible for Skid Row outreach with the goals of assuring child safety, providing ongoing case management and enforcing the Board's zero tolerance policy for families on Skid Row;
- Directed DCFS and DPSS to report back in 30 days on expansion of contracted services available for children and families on Skid Row and work with the County Departments of Mental Health (DMH,) Health Services (DHS), LAHSA, First 5 (Los Angeles) and Public Counsel, along with other advocates in Skid Row to assure that services to Skid Row families are adequately coordinated;
- Directed DCFS and DPSS along with the coordination of DMH, DHS and other agencies to conduct a six-month assessment of the new outreach protocol to ensure the well-being of our homeless families in Skid Row. Additionally the Departments were directed to provide a monthly report on their outreach activities to the Board for the next six months and;

- Directed DCFS, the Chief Administrative Office and County Counsel Office to recommend changes to State law that will give DCFS the authority to intervene when homeless families do not wish to voluntarily assure their children's safety and well-being.

ACTIONS TAKEN

Child Safety

- DCFS executive management instructed the DCFS Child Protection Hotline to establish an internal tracking system at the Hotline to ensure that child abuse and neglect referrals related to the Skid Row area are flagged and assigned to the DCFS Metro North regional office. The purpose of this flagging system is to facilitate and expedite processing of Skid Row referrals to assure child safety and to maximize the coordination of services to homeless families. DCFS will explore the possibility of preparing a detailed analysis on each family for whom services were provided on Skid Row.
- On November 21, 2005, 2005, DPSS added Union Rescue Mission as another site where DPSS eligibility staff are outstationed.
- On December 15, 2005, DCFS and DPSS met with Skid Row community providers to discuss the common needs and issues among service providers in the Skid Row area. The community providers recommended that DCFS:
 1. Trains the staff of Skid Row service providers on proper child abuse/neglect referral criteria;
 2. Ensures an expedited immediate response when a Hotline referral is generated as the result of a contact from a DCFS-trained service provider;
 3. Periodically provides workshops to parents residing on Skid Row, including the provision of life skills advice related to the care and protection of their children when the family is facing homelessness;
 4. Stations DCFS staff on Skid Row in a location where parents can easily go to receive advice and DCFS can easily coordinate seamless County services for Skid Row families;
 5. Remains in continuing dialogue with Skid Row service providers on means by which to get families off the streets.
- On January 17, 2006 and January 18, 2006, the DCFS Child Protection Hotline administration provided a two-day, four-session training for DPSS staff, including case workers, supervisors and administrators who provide direct services to homeless families. The training included Child Abuse and Neglect reporting laws; completion of the Suspected Child Abuse Report form; child abuse and neglect

indicators and the specific application of these indicators to homeless families. DCFS revised its assessment tool utilized by the Skid Row Outreach Team (SROT) to include the procedure of researching prior referral history on each family assessed by SROT. County Counsel is also researching the possibility of running Child Abuse Central Index (CACI) searches on Skid Row homeless families. The CACI is a database of information about child abuse investigations that have occurred in California.

- DCFS currently has daytime presence on Skid Row through the SROT. On alternate workdays, two Children's Social Workers (CSW) share the responsibility of serving children and families in the Skid Row area between the hours of 8:30 A.M. and 5:00 P.M. One CSW works on Monday and Wednesday; and the other CSW works on Tuesday, Thursday and Friday. In the event that the assigned CSW takes a vacation or a day off, two back-up CSWs are assigned to serve in the Skid Row area. Additionally, effective January 19, 2006, DCFS assigned two Emergency Response Command Post CSWs to conduct outreach to homeless families in Skid Row during the evening, between the hours of 6:00 and 10:00 P.M. Monday through Friday. DCFS intends to continue the weekly evening outreach until a Family Preservation service provider begins to provide similar outreach. We are also considering the provision of weekend coverage.
- DCFS is currently in the process of finalizing a Memorandum of Understanding with the Los Angeles Police Department and the Los Angeles City Attorney to outstation a CSW at the Central Police Station between the hours of 4:00 P.M. and 2:30 A.M.
- DPSS eligibility staff on Skid Row will call the DCFS Child Protection Hotline if child abuse or neglect is suspected on any of the families they serve based on the appropriate indicators. DCFS Hotline staff will assign the referral for immediate response and flag the case for priority response.

Expansion of Contracted Services

- On December 28, 2005, DCFS management held an internal meeting regarding the immediate expansion of the existing Family Preservation contracts of those providers that service the Skid Row area. These agencies are Para Los Ninos and Hillside's Family Services. Para Los Ninos has agreed to submit a proposal outlining services to be provided and the cost of such services. Hillside's Family Services has requested additional information and meetings to discuss their current services and the proposed new services.
- On January 5, 2006, DCFS management held an internal meeting to address the general expansion of contracted Family Preservation services for children and families on Skid Row. DCFS is looking to utilize Family Preservation/Alternative Response Services to assist the homeless families in Skid Row in need of housing, transportation, clothing, food, health and linkages to employment training and

educational services. This may require an amendment to the existing family preservation contracts for providers in the SPA 4 area.

- DCFS is currently evaluating the necessary family preservation services for homeless Skid Row families; and will forward letters to each currently contracted Service Planning Area 4 Family Preservation provider soliciting their interest to provide outreach services to the children and families in the Skid Row area. The SPA 4 providers that will be sent solicitation letters are California Hospital, Hillside, El Centro Del Pueblo, Para Los Ninos, and Institute for Multicultural and Counseling Education Services.

Assessment of the New Outreach Protocols

- On December 7, 2005, DCFS Emergency Response Command Post (ERCP) met with Captain Smith of the Los Angeles Police Department. The purpose of the meeting was to develop a systematic approach that will ensure ongoing communication between DCFS-ERCP and law enforcement to assure child safety on Skid Row after normal business hours.
- On December 9, 2005, DPSS, DCFS, DHS and DMH met with all of the Skid Row Shelter/Mission/Access Centers' case managers. At this meeting, DPSS explained the benefits and services available to CalWORKS' homeless families on Skid Row and explained that the outstationed eligibility staff would take applications and determine availability of homeless benefits for CalWORKS' families on Skid Row. DPSS provided the case managers with reference materials, which included the telephone numbers and locations of the outstationed eligibility staff.
- On January 4, 2006, representatives from DPSS, DCFS, LAHSA, Public Counsel, and Public Health participated in a meeting held at the DPSS Administrative Offices. The purpose of the meeting was to redefine DCFS' role as the co-lead agency responsible for Skid Row outreach.
- On January 17, 2006 DCFS met with First 5 (Los Angeles). At this meeting, we discussed how First 5 could be included to provide services to the families in Skid Row. This included a discussion of the contracts and interagency collaboration. The next roundtable meeting is scheduled to take place on January 31, 2006 at 8:00 AM to further address the issue of how First 5 (Los Angeles) can assist in the effort to service Skid Row families and address child safety issues.
- Effective January 23, 2006, DPSS eligibility workers will be available at the Midnight Mission until 7:30 PM so they can provide assistance to families who come to the Mission shortly before it re-opens for the evening at 7 PM.

Recommended Changes to State Law

The Office of the County Counsel is addressing the legal issues in a separate Board Memo.

Monthly Outreach Activity Report

Attached is the December 2005 statistical report on the activities of the Skid Row Outreach Team and the DPSS eligibility staff outstationed on Skid Row. The number of families whom the DPSS eligibility staff interviewed in December more than doubled from November 2005. The following recent activities contributed to the increase:

1. On November 21, 2005, DPSS added Union Rescue Mission as another site where eligibility staff are outstationed; and
2. On December 9, 2005, DPSS, DCFS, DHS and DMH met with all Skid Row shelter/mission/access centers' case managers.

SUMMARY AND CONCLUSION

The Departments of Children and Family Services and Public Social Services remain committed to attaining the goals of assuring child safety, providing ongoing case management and enforcing the Board's zero tolerance policy for families on Skid Row. We are confident that the collaboration that continues to grow between County Departments, law enforcement agencies, the community and other advocates will assist Skid Row families in the care and protection of children. However, in those instances where county intervention is required, the above stated protocols will assure the safety of children and help Skid Row families receive the services they deserve.

DECEMBER 20, 2005 AMENDMENT TO BOARD AGENDA ITEM #44: SKID ROW OUTREACH STRATEGIES

INTRODUCTION

On December 20, 2005, your Board instructed the Department of Public Social Services (DPSS) and the Department of Children and Family Services (DCFS) to further enhance Skid Row Outreach efforts by making the Skid Row Family Outreach Team's (SROT) first priority child safety. In addition, it was requested that the Departments provide a monthly update on the status of the project.

The following is a second monthly update on the status of the coordinated service enhancements made in order to assure child safety, provide ongoing case management and enforce the Board's zero tolerance policy for families on Skid Row and the related outreach activities.

SERVICE ENHANCEMENTS

On January 23, February 7, 9, 10, and 22, 2006, representatives from DPSS, DCFS, DMH, and the CAO Services Integration Branch met. The meetings were called by the CAO Service Integration Branch as a result of the CAO assuming a lead role relative to the plan for services to families on Skid Row. The purpose of the meetings was to create an Enhanced Family Diversion Plan to Assure Child Safety, Enforce Zero Tolerance Policy and identify services and funding gaps for Homeless Families on Skid Row. Please refer to the attached Enhanced Family Diversion Plan – Attachment I.

In summary, these meetings resulted in the following recommendations and actions.

1. **RECOMMENDATION:** DPSS Eligibility staff will extend their hours of availability to complete eligibility assessments at the Union Rescue Mission (URM) and the Midnight Mission (MM).

ACTION TAKEN: DPSS Eligibility staff is co-located in each of the Missions and at the Weingart Center and has expanded their hours of operation on Skid Row.

The DPSS Eligibility team is now present to complete eligibility assessments at Union Rescue Mission beginning at 7:00 AM until 5:00 PM and at the Midnight Mission (MM) beginning at 6:00 AM until 7:30 PM.

DCFS has expanded its presence on Skid Row. With the assistance of DPSS, DCFS has secured approval from URM to co-locate a Children's Social Worker beginning at 8:00 AM to 5:00 PM. DCFS is continuing to seek approval from the Midnight Mission to co-locate a Children's Social Worker at MM as well. The Emergency Response Command Post staff is now conducting outreach in Skid Row, between the hours of 6:00 PM - 9:00 PM Monday through Friday. The staff also patrols the area on Saturdays and Sundays.

DCFS is currently in the process of finalizing a Memorandum of Understanding (MOU) with the Los Angeles Police Department and the Los Angeles City Attorney to outstation a CSW at the Central Police Station between the hours of 4:00 PM and 2:30 AM. Approval of the MOU is anticipated within the next thirty days.

2. **RECOMMENDATION:** DCFS staff on Skid Row will be provided with electronic access to the Child Welfare System/Case Management System in order to determine if a family on Skid Row has had past DCFS involvement.

ACTION TAKEN: Access to identify open DCFS cases is currently available through two means: Access to the DPSS LEADER system and the DCFS Child Welfare Systems/Case Management Systems. DPSS computers provide access to general information regarding the status of open or closed cases. The CWS/CMS database currently accessible through the DCFS Child Abuse Hotline provides detailed information regarding the previous case history. In addition, DCFS will pursue the allocation of a laptop computer for the outstationed DCFS staff to provide them with direct access to the CWS/CMS database for purposes of data entry into the system.

The DCFS Child Protection Hotline is also maintaining an internal flagging system to ensure that child abuse and neglect referrals related to the Skid Row area are flagged and expedited for assignment to the regional office. The purpose of this flagging system is to facilitate and expedite processing of Skid Row referrals generated from

within the zip code area of 90013 to assure child safety and to maximize the coordination of services to homeless families.

3. **RECOMMENDATION:** DPSS will complete a questionnaire on all homeless families to collect data; specific reasons for homelessness; and the level of services provided on every homeless family encountered on Skid Row for the purposes of creating a database that will be shared by the Team.

ACTION TAKEN: The first meeting of the Database workgroup was held on February 23, 2006 at which time the team reviewed the Homeless Questionnaire developed by DPSS. Please refer to Attachment II. Each of the departments serving Skid Row homeless families and LAHSA will be able to input information into the database on the families they serve and have access to general information regarding the identification of the agencies currently involved in providing services to the Skid Row homeless families.

4. **RECOMMENDATION:** DPSS will utilize Contract Housing locators to locate permanent housing outside of Skid Row.

ACTION TAKEN: DPSS will have Contract Housing Locators available in July 2006.

5. **RECOMMENDATION:** A uniform case management protocol for the Skid Row families is needed to ensure that all agencies are working together and using consistent standards.

ACTION TAKEN: DMH will create the case management protocol based upon the success of the Homeless Families Project that began in 2002. The case management protocol was completed by DMH on March 2, 2006 and is currently out for review by the other Departments.

As of February 13, 2006, representatives from DPSS, DCFS, DMH, and LAHSA have been meeting weekly to evaluate the Skid Row Family Outreach Team (SROT) procedures, meet with the SROT members, and conduct a weekly case review with the SROT members. The program managers will continue to meet weekly to evaluate the program.

DCFS also established a new supplemental risk assessment protocol specific to use by the SROT DCFS members and the DCFS staff who will be co-located at the Missions. The purpose of the new tool is to ensure that the following issues are addressed with every homeless family encountered by the SROT: Previous DCFS history, History of Refusing Community Services, History of Domestic Violence and Mental Health, Inability to Provide Minimum Sufficient Level of Parenting, Parent's Failure to Protect the Child, Caretaker's Explanation for Homelessness, Parent's Inability to Access Services, Chronicity of Homelessness, Caretakers Ability to Meet The Child's Immediate Needs for Supervision, Food, Clothing, and/or Medical/Mental

Health Care Needs, and Physical Living Conditions Immediately Threatening to the Health and/or Safety of the Child. (Please refer to Attachment III - the Supplemental Safety Assessment tool).

DCFS has developed a policy specific to a Parent's Failure to Provide a Child with Adequate Housing to ensure child safety in working with families without adequate shelter. Final approval is anticipated within thirty days.

DCFS has provided training specific to the assessment and detection of child abuse and neglect by professionals who work to serve the Skid Row population on a daily basis. To date the following agencies have been trained:

December 9, 2005 – Family Preservation Service Providers/Downtown collaborative;
January 17 and 18, 2006 – DPSS Homeless Case Managers and Administrators;
February 22, 2006 – DCFS CAHL SCSW's, ERCP ARA's and SKID ROW STAFF.

Training for Central City Service Providers is scheduled for Monday, March 13, 2006.

EXPANSION OF CONTRACTED SERVICES

- On January 27, 2006, DCFS held a meeting with Para Los Ninos to discuss implementation of Family Preservation Services in Skid Row. It was identified at this meeting that there are no specified funds for family preservation services specific to Skid Row. However, Para Los Ninos agreed to work with homeless families on Skid Row and have set aside slots for these families from the current funding allocated through SPA 4's family preservation funds for open SPA 4 DCFS cases.
- On January 30, 2006, DCFS held a phone conference with the Family Support Manager of Hillside's Family Services. Hillside's reports that it is willing to be involved in the Homeless Project on Skid Row by providing services to the families who are vouchered for temporary housing from Skid Row into the local motels. However, it has no money available to support a new project and no resources to provide shelter or housing. Hillside's will meet with DCFS, Para Los Ninos and other agencies on the Homeless Project in order to establish a plan of services. The date of the meeting will be arranged.
- On February 14, 2006, representatives from DCFS, Para Los Ninos, Hillside's, Assistance League, California Hospital, and the Institute for Multi-Cultural and Counseling Education Services (IMCES) met at Amanecer Counseling Center. The purpose of the meeting was to address Service Expansion and Coordination, Interagency Partnership, and assure Child Safety for the Homeless Families on Skid Row. As a result of the meeting, two additional agencies agreed to service families identified by the Skid Row Outreach Team (SROT). The agencies are El Centro Del Pueblo and Institute for Multi-Cultural and Counseling Education Services (IMCES).

- In the event that any of these agencies exceeds its annual allocation as a result of providing these services for the families on Skid Row, DCFS will supplement the funding by an additional 10%. Currently the DCFS member of the SROT will make the initial referral to the family preservation agency. As families are relocated to other areas outside of Skid Row, the SROT CSW will make a referral to the respective area Family Preservation agency. The SROT CSW will identify and refer families that are not enrolled in the CalWORKs Welfare to Work Program and are therefore not eligible to the full range of CalWORKs homeless benefits through DPSS. The plan for services includes 90 days of case management services directed towards overcoming obstacles for the family to maintain stable housing.
- One Family Preservation agency, Para Los Ninos, is currently serving homeless families on Skid Row. Four additional agencies have agreed to begin services upon receipt of training. The agencies are Assistance League, Hillside, El Centro Del Pueblo, and IMCES. The agencies have identified a need for training to equip their staff to work effectively with homeless families. Para Los Ninos has agreed to provide special training for this purpose and has submitted a training proposal. The training dates will be arranged.

MONTHLY OUTREACH ACTIVITY REPORT

Attached is the January 2006 statistical report on the activities of the Skid Row Outreach Team and the DPSS eligibility staff outstationed on Skid Row. Please see Attachment IV.

ADDITIONAL RELATED MEETINGS HELD

- On January 26, 2006, The Los Angeles Central Providers Collaborative and the Los Angeles Health and Human Services Department hosted a special planning meeting with DCFS and DPSS. The purpose of the meeting was to further discuss and update the initial plan developed at the November 3, 2006 meeting regarding for the strategies to provide services to the homeless families in the Skid Row area.
- On January 31, 2006, representatives from DPSS, DCFS, LAHSA, Public Counsel, and Public Health attended the First 5 LA Roundtable: Homeless Families in Skid Row. First 5 LA hosted the policy roundtable to discuss existing and potential collaboration among county agencies to address service needs of homeless families in Skid Row. This meeting was a direct response to the December 20, 2005 Board Motion focusing on the issue of **child safety** among homeless families. The goals included the following: Assure Child Safety, Enforce Zero Tolerance Policy, Assure Service Coordination, and Ensure Well-Being of Families. The strategies identified included the following: Service Expansion & Coordination, Interagency Partnership,

Evaluation of Outreach Services, Policy & Regulatory Changes and On-Going Monitoring. The next meeting will take place in March 2006.

- On February 22, 2006, Beyond Shelter sponsored a meeting for the members of the Homeless Families working group. The purpose of the meeting was to plan for the first meeting to re-convene the L.A. Countywide Coordinating Council for Homeless Families. The first meeting is scheduled for March 22, 2006.

SUMMARY AND CONCLUSION

The Department of Children and Family Services and Public Social Services remain committed to attaining the goals of assuring child safety, providing ongoing case management and enforcing the Board's zero tolerance policy for families on Skid Row. We are excited about the new opportunities that have been identified during the collaboration between County Departments and the community agencies that will assist Skid Row families in the care and protection of children.

**ZERO TOLERANCE FOR FAMILIES ON SKID ROW
ENHANCED FAMILY DIVERSION PLAN
March 7, 2006**

1. Child Safety:

Child safety is our first concern. For this reason, DCFS staff working on Skid Row will clear all cases on their Child Welfare System/Case Management System (CWS/CMS) to determine if the family has had past involvement with DCFS. If there is probable cause for further investigation, DCFS will also access the Department of Justice's (DOJ) database, recognizing the inherent dangers of Skid Row environment on children.

A joint interview for services/benefits will be conducted by DPSS and DCFS. In addition, DCFS will conduct a child risk assessment on all families

The ability to share data across departments is found in Welfare and Institutions Code, which allows for "multi-disciplinary teams" who are engaged in the "prevention, identification, and treatment of child abuse" to share confidential information within the team members.

2. Skid Row Family "Early Morning" Screening Teams:

DPSS Skid Row Family Teams are stationed at the Union Rescue Mission (URM) and Midnight Mission (MM), Monday through Friday. The Team serving MM is on duty at 6:00 a.m., and the Team serving URM is on duty at 7:00 a.m. Both teams end at 7:30 p.m.

Sunday through Thursday, URM and MM will identify any family who comes into the shelter during the night and will bring that family to the County Team prior to the family leaving the shelter.

DCFS staff will join DPSS at the URM beginning March 13, 2006. We are waiting approval from MM management permitting DCFS to collocate with DPSS at that location.

LAHSA, DMH and a DHS Public Health Nurse are available to the teams on an "on-call" basis from 8 a.m. to 5 p.m. to provide services, e.g. housing vouchers, transportation, mental health assessment, clinical needs.

Upon completion of assessment and dependent on their needs, families will be transported to either the Weingart Family Access Center, Downtown Mental Health Center (DMH), and eventually housing. (See #6 below.)

3. Single Homeless Families Database for All Agencies:

As a part of the Enhanced Skid Row Family Diversion Plan, DPSS will create a database that will be web-based for use by all involved County departments and LAHSA. The data will include family name, location, service dates, reasons for homelessness, family circumstances, service needs, services provided, and all other information deemed necessary to provide appropriate services. Families will be asked to sign a *Consent to Share Information* form, should one be needed, to allow the exchange of information beyond the multi-disciplinary team.

Once the database is created, LAHSA's existing data will be incorporated to maintain one system for all homeless families on Skid Row. This will ensure that we identify unique family counts and avoid duplicate counts. The database will be up and running in five weeks.

4. Housing Assistance Needs of Skid Row Families:

The housing goal for Skid Row families is permanent housing with strong case management to ensure the families stay connected with necessary supportive services. In order to find adequate permanent housing and provide rental assistance to enable the families to afford the housing, a number of avenues will be pursued:

- Pending the location of permanent housing opportunities as discussed below, short term housing at extended stay hotels outside of Skid Row will be explored for Skid Row Families.
- The City of Los Angeles will be requested to provide Section 8 vouchers or other rental assistance funding.
- If appropriate, the Mental Health Services Act Housing Fund will be accessed to provide rental assistance.
- County general fund support for rental assistance through the Board directed Housing Trust Fund may also be accessed after the fund is established in the 2006-07 budget.

5. Families Ineligible for DPSS housing assistance:

Funding needs to be identified for families, including undocumented families, which do not meet the requirements to receive DPSS housing assistance and other services. For families which are not eligible for some or all DPSS housing assistance, non-DPSS funding will be needed to cover the ineligible families. In some instances, DCFS Family Preservation funding may be available for these families. For other cases, County general fund may be the only funding source. In addition, this Skid Row homeless family population also needs to have case management to ensure that they are moved out of Skid Row and receive adequate supportive services to keep them out of Skid Row. With general fund support, DCFS will provide case management services for this group of families.

These families should have the same short term housing placement as discussed in number 4 above.

6. Skid Row (SR) Housing Locators:

DPSS expects to have their Contract Housing Locators available in July 2006. DPSS funded Locators may be used to locate permanent housing outside Skid Row for eligible (CalWORKs or GR) families only. With County general fund support, DPSS will use their housing locators for families who are ineligible for DPSS services as well. Other County departments may also contract with the DPSS Housing Locators firm.

7. Transportation:

The Skid Row Family Outreach Team currently provides transportation to the Skid Row homeless population to connect them with services and housing. The Skid Row Family "Early Morning" Screening Teams will require morning access to this transportation in order to connect families to:

- Weingart Family Access Center
- DMH Skid Row Clinic
- Housing for families

8. Uniform Assessment Tool and Case Management Protocol:

A uniform assessment tool and Homeless Families Questionnaire and Service Referral Form for the Skid Row families will ensure that all agencies are working together, gathering consistent information and using the same standards.

DMH case management protocol for the CalWORKs Homeless Families Project is the most intensive case management protocol. That protocol will be used as a model for families needing the full array of services.

The case management protocol was completed on Thursday March 2, 2006. It is intended that the protocol will be used by the following County departments and other Skid Row service partners:

DPSS
DCFS
DMH
LAHSA
Weingart
MM
URM

DPSS/DMH/DCFS case management will geographically move with the family as it transitions out of Skid Row.

DPSS has developed and implemented an assessment tool for use with all homeless families which addresses the full range of the family's circumstances, and included health-related questions provided by the Department of Health Services. DCFS has developed a specific child safety assessment tool for use by the DCFS CSW on the Skid Row Outreach Team and the CSWs who will be collocated at URM and, hopefully, also at Midnight Mission.

9. Training for Skid Row Providers and County Staff:

The County will develop a training program for County staff and other Skid Row service providers on the uniform assessment tool and case management protocol. The training program will also include information on the roles and responsibilities of the Zero Tolerance for Families on Skid Row Enhanced Family Diversion Plan. As noted in Attachment A, the training will take place the week of March 27, 2006.

10. Family Diversion Plan Accountability:

The CAO will convene the key managers of the departments of DCFS, DHS, DMH and DPSS along with representatives of LAHSA, Weingart, Midnight Mission and the Union Rescue Mission on a bi-monthly basis to collect information and data about the outcomes for families encountered and served by the Skid Row Family Screening Teams and the Skid Row Outreach Teams. The outcomes to be measured include: when the family was moved out of Skid Row, where the families are currently housed, what type of housing they occupy (emergency, transitional or permanent), what the planned next step for housing is and when it is to occur, what supportive services each member of the family is receiving, DCFS' assessment of the child(ren)'s well-being, and the case manager's assessment of the family's stability.

Homeless Case Management Tracking System

Implementation Schedule

- Development 2/13 – 3/17
- User Identification 2/27 – 3/3
- Testing 3/18 – 3/24
- Training 3/27 – 3/31
- Implementation 4/1

Pre-Loading of Database

- Prior to implementation, LAHSA's database will be automatically loaded to the new database (week of 3/27)
- Once system is operational, DPSS Homeless Case Managers will update all of the manual data collected to this date and enter it into the system.

System Users

- DPSS, DMH, DCFS, DHS, LAHSA
- Approximately 150 users

Sharing of Data

- Multi-Disciplinary Teams (MDT) – team of three or more persons who are trained in the prevention, identification and treatment of child abuse and neglect cases and who are qualified to provide a broad range of services related to child abuse. This team can share information without a family member's signed consent form as long as all other criteria are met.
- Family's Signed Consent form – needed to share information if not an MDT.
- If a family member refuses to sign the consent form and MDT does not apply, the tracking system will allow only that department to view, update, or select that department's data. The display to other departments will only be "referred to ____ department", along with department contact person's name/number.

Tracking System Access

- The application will be displayed at DPSS, DMH, DCFS, and DHS websites.
- The system will store all data, and not allow for overrides.
- The system will have drop down menus to the extent possible.
- Sorting of data will be classified by day and department.
- DPSS will manage the database and make all programming changes.
- Data Dictionary of terms will be developed.
- Operational Handbook for each department/agency as well as the Skid Row Outreach Team will be developed.

Data to be Captured

- LAHSA data existing in their current database
- DPSS Homeless Questionnaire data
- Child Safety data from DCFS
- Service data from DPSS, DMH, DCFS, DHS, and LAHSA
- Other pertinent data identified by the County

HOMELESS QUESTIONNAIRE

INTERVIEWER SCRIPT: "I would like to learn more about you, what circumstances led you to become homeless, what kind of problems you face, and whether or not your needs are being met. SUPPLEMENTAL SAFETY ASSESSMENT SRFOT PROTOCOL

The purpose of the Supplemental Safety Assessment Skid Row Family Outreach Team (SRFOT) Protocol is to structure critical decisions for children who have been encountered by the SRFOT by:

1. Routinely monitoring critical case factors obtained by an evaluator
2. Help to structure the interview with a family, and
3. Expedite a referral to the Child Abuse Hotline when appropriate.

This SRFOT Procedural is applicable to all new clients encountered by the SRFOT Children's Social Worker.

The intent of this instrument is to assist the evaluator when assessing a family that lacks adequate shelter. It is an aide to identify issues that may raise the suspicion of child abuse. It is not intended to be an in-depth assessment of the family.

4. Mental Health History

Client Self Report:

DCFS record:

DMH record: (Consult with DMH SRFOT member)

5. Inability to Provide Minimum Sufficient Level of Parenting

There are a variety of issues to be considered in assessing parenting skills; drug impairment, alcoholism, developmental disabilities, mental health and lack of knowledge. Examples:

- The client has a history of keeping child(ren) in the shelter, away from school, away from childcare for extended periods of time.
- Current disability, mental illness, or substance abuse seriously impairs his/her ability to supervise, protect, or care for the child(ren).

6. Client fails to protect child(ren). This may include physical abuse, sexual abuse, or neglect.

- Client(s) fails to protect child(ren) from serious harm.
- Client(s) does not provide supervision necessary to protect child(ren) from potentially serious harm by others. Parental care and supervision is needed due to the environmental factors including, but not limited to, alcohol abuse, drug use, sex offenders, and/or mental illness among the person(s) a child has contact with or who may have access if proper supervision is not provided.
- Client is not considering the child(ren)'s age and/or developmental stage as a factor in parental supervision.

7. Client(s) explanation for the lack of adequate shelter is questionable or inconsistent with the explanation, and/or the immediate plan for shelter suggests that the child(ren)'s safety may be an immediate concern.

- Client(s)' explanation for their lack of adequate shelter or the cause of the lack of adequate shelter minimizes the extent of harm to the child.
- Factors to consider include age of child, location or quality of the temporary housing, exceptional needs of child(ren), or chronicity of the lack of adequate shelter.
- Client(s) intentionally coaches or coerces child(ren), in effort to hinder the assessment about the lack of adequate shelter.

8. Inability to Access Services

- The family that lacks adequate shelter is excluded from the services traditionally available through interventions, such as vouchers or shelters as they do not meet the basic requirements.
 - Ineligible as they receive SSI or other grants
 - They cannot meet technical program requirements.
